Weight	10 lbs
Dimensions	8 × 4 × 6 in

PRODUCT DESCRIPTION

Oil is cleaned better and more efficiently when it is hot, at least 150*F. This efficient heating unit bolts right on to the centrifuge, and superheats the oil as it enters the centrifuge bowl. It saves you from heating your entire feedstock. This upgrade is strongly recommended.

RELATED PRODUCTS

Oil Centrifuge Power Booster

Since 2009, we have been supplying portable and stationary pumps for moving all types of oil. Oil cleaning centrifuges are also important tools to re-use oil as fuel or lubricant.
