Dimensions	20 x 14 x 16 in

PRODUCT DESCRIPTION

If you are looking for an oil pump that allows you to combine speed, convenience, and flexibility all in one useful tool, you will find all you need and more in the high-quality portable **oil transfer pump**. Not only is this gear pump self-priming, but it can also move your viscous oil at speeds up to 12 gallons per minute.

At 45lbs, the transfer **oil pump** is one of the most easily portable options available, and can be used even in tight spaces with limited maneuverability. The electric motor is built to last, pumping oil at high speeds in rough conditions.

It can even work with cold oil, making it an excellent solution in any conditions. Investing in a gear pump for your business can help you raise productivity and efficiency by eliminating the wasted time and effort needed with a bulkier, slower oil pump.

There will be no lengthy start up process, because you can simply plug in the power cord and turn it on. You will have no need to stand around waiting while the oil is sluggishly pumped out because this fast action **pump** will finish the job in minutes.

The portable pump can go virtually anywhere, offer high performance for the toughest, dirtiest jobs, and work fast to allow you to accomplish more than ever in your work day.

Additional Specs:

- *Weight: 45lbs
- *Self Priming
- *Suction Height: 15ft
- *Push Lift Height: 90ft
- *Reversible** - Rewire or add a switch to allow dual directional flow!
- *Duty Cycle: Continuous
- *Priming: Self priming
- *12gpm(45 liters/min): 1" threaded ports
- *Pump needs oil to lubricate the gears. Will not work with water.

Motor Specs

- *Output: 1 HP
- *Speed: 1750 RPM
- *Volts: 120 (comes prewired for 120)

Pumphead Specs

- *1" NPT Ports
- *Stainless Steel 1.25" Hose Barbs Included (fits 1.25" hose kit)

Motor Oil Pumps: Efficiency and Flexibility at Your Fingertips

Since 2009, Alternative Fuel Mecca has been your go-to source for high-quality portable and stationary pumps designed to handle all types of oil. We understand the importance of efficiency and sustainability, which is why we also offer oil-cleaning centrifuges to help you reuse oil as fuel or lubricant.

Why Choose a Motor Oil Pump?

Motor oil pumps are indispensable for anyone needing to move oil efficiently. Whether you are dealing with new or used motor oil, these pumps are built to provide speed, convenience, and flexibility. Our high-quality portable oil transfer pump combines all these features into one handy tool.

Key Features of Our Portable Oil Transfer Pump:

1. **Speed and Efficiency:** Self-priming and powerful, this gear pump handles viscous oils at up to 12 GPM. You won't have to wait around for sluggish oil transfers; this fast-action pump gets the job done in minutes.
2. **Portability:** Ultra-portable! Our 45-lb transfer oil pump goes anywhere you need it. It's perfect for use in tight spaces with limited maneuverability, making it ideal for various applications.
3. **Durability:** The electric motor is built to last, pumping oil at high speeds even in rough conditions. This pump can handle cold oil, making it a reliable solution in any environment.
4. **Ease of Use:** There will be no lengthy startup process. Simply plug in the power cord and turn it on. The pump's straightforward operation means you can focus on getting the job done rather than fiddling with complicated controls.
5. **Versatility:** The portable pump can go virtually anywhere and handle the toughest, dirtiest jobs. Its high performance allows you to accomplish more than ever in your workday.

Why Invest in a Gear Pump?

Gear pumps can turbocharge your business! See a significant boost in productivity and efficiency. By eliminating the wasted time and effort associated with bulkier, slower oil pumps, our portable oil transfer pump offers a superior alternative. No need to worry about oil temperature. This versatile pump tackles any situation.

Advantages of Using Our Gear Pump:

- **Quick Setup:** No lengthy startup process. Just plug in and go.
- **High Performance:** Fast-action pump that gets the job done in minutes.
- **Portability:** Lightweight and easy to maneuver, perfect for tight spaces.
- **Durability:** Built to withstand rough conditions and heavy use.
- **Versatility:** Suitable for various applications, including transferring used motor oil.

Applications for Motor Oil Pumps

Motor oil pumps are versatile tools used in a variety of industries. They are essential for mechanics, farmers, construction workers, and anyone else needing to transfer oil efficiently. Whether you're dealing with fresh or used motor oil, a reliable pump can make all the difference.

Common Uses Include:

- **Automotive Workshops:** Quickly transfer oil during maintenance and repairs.
- **Farming Operations:** Efficiently manage oil for tractors and other machinery.
- **Construction Sites:** Keep equipment running smoothly with fast oil transfers.
- **Industrial Settings:** Handle large volumes of oil with ease and precision.

Why Choose Alternative Fuel Mecca?

At Alternative Fuel Mecca, we pride ourselves on providing top-quality products and exceptional customer service. Over a decade of experience means we understand your needs and deliver solutions that work.

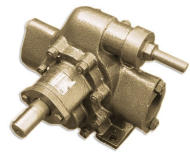

Our Commitment to You

- **Expertise:** Our knowledgeable staff can help you choose the right pump for your needs.
- **Quality:** We supply only the best pumps, ensuring reliability and performance.
- **Support:** We're here to assist you long after the sale, offering help and guidance whenever you need it.
