

LOW VIBRATION SANITARY PUMP 100GPH

SKU: SP215-22-180

Price: \$9,505.00

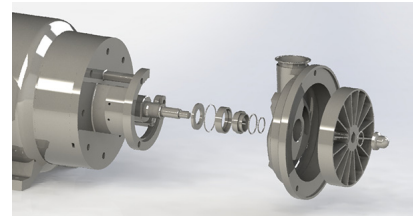

Self Priming

For Sanitary Applications

316 stainless contact parts

Custom Electric motors - 120V/230V/480V/Explosion Proof/Washdown

Categories: [Stainless Pumps](#) |

SPECIFICATIONS

Weight	50 lbs
Dimensions	20 x 14 x 16 in
Fluid	Sanitary or Caustic Fluids
Voltage	120V, 230V, 460V, 12V, 24V, 3 Phase
Speed	60GPM

PRODUCT DESCRIPTION

The self-priming capability of Ampco's SP liquid ring pumps make them ideally suited for CIP return applications and for handling products with entrained air.

- The ability to handle products with entrained air makes SP pumps extremely efficient for emptying tanks and drums.
- Tight manufacturing tolerances and the unique vane-shaped impeller enables SP pumps to handle shear sensitive products efficiently.
- SP pumps are available with either single or double external mechanical seals.
- Standard adapters are made of 304 SS to resist corrosion.

*Pumps are in conformance with 3A sanitary standards for centrifugal and positive rotary pumps for milk and milk products, Number 02-10.

SP-Series pumps have a standard 32RA (150 grit) finish, on all product contact surfaces.

RELATED PRODUCTS

Since 2009, we have been supplying portable and stationary pumps for moving all types of oil. Oil cleaning centrifuges are also important tools to re-use oil as fuel or lubricant.
