### **SPECIFICATIONS**

<b>Weight</b>	2 lbs
<b>Dimensions</b>	7 x 5 x 2 in

### **PRODUCT DESCRIPTION**

The *Power Booster* adds efficiency to your centrifuge. It gets the oil spinning prior to entering the bowl. It also insures the new oil enters at the bottom of the bowl, thus having to work it's way through the entire contents of the bowl before leaving the centrifuge. It's recommended.

Since 2009, we have been supplying portable and stationary pumps for moving all types of oil. Oil cleaning centrifuges are also important tools to re-use oil as fuel or lubricant.
