### **Attention Shop Owners & Service Technicians: Transform Your Oil Transfer Speed - 25 Gallons Per Minute!**

In a professional shop, every minute counts. Slow oil transfers don't just waste time - they impact your bottom line, delay job completion, and keep customers waiting. That's revenue walking out your door.

Introducing the Professional-Grade 25GPM Portable Oil Transfer Pump. This industrial powerhouse revolutionizes your oil transfer process.

Since 2009, Alternative Fuel Mecca has been supplying professional-grade equipment to help move oil quickly all over the United States. We understand the demands of daily shop operations.

#### **What you get:**

- Professional-Grade Speed: 25 gallons per minute (empty a 55-gallon drum in ~2 minutes)
- Instant Operation: Self-priming technology
- Industrial Durability: Built for professional daily use
- Long-Term Reliability: 20-year motor lifespan
- Professional Portability: Compact 45lb design
- Superior Range: 15ft suction height, 90ft push height

## DETAILED SPECIFICATIONS

### **Motor Specifications:**

- USA-made Baldor 3/4 HP industrial motor
- 120V, 60Hz, single phase
- 8.4 amp draw
- 3450 RPM (standard) or 1700 RPM (heavy duty)
- Pre-wired with 3-prong power cord
- Thermally protected
- 14mm keyed shaft

### **Pump Head Specifications:**

- Dimensions: 17" x 11" x 7"
- Weight: 45lbs
- Temperature Rating: Up to 400°F
- Flow Rate: 25 GPM (standard) or 12 GPM (heavy duty)
- Ports: 1" NPT with 1.25" stainless steel hose barbs
- Viton seals (B100 compatible)
- Self-priming design
- Reversible flow capability
- Straight-through design for unrestricted flow

Includes:

- Industrial-grade motor with Viton seals
- B100 compatibility
- Reversible flow capability
- 1" ports with 1.25" hose barbs
- Continuous duty rating

Calculate your ROI: Saving 10-30 minutes per oil transfer across multiple jobs daily translates to significant labor cost savings and increased throughput.

Backed by our comprehensive warranty and professional technical support.

### **COMPATIBILITY**

Ideal for:

- Waste vegetable oil (WVO)
- Biodiesel
- Diesel fuel
- Heating fuel oil
- Kerosene
- Glycol
- Other light oils

Not recommended for:

- Motor oil (see our [HD 12 GPM version](#))
- Water
- Highly aqueous solutions
- Highly flammable liquids

### **POWER REQUIREMENTS**

- Standard 15 amp residential outlet

- Generator Option: 3,000W continuous, 3,500W peak
- 12V Inverter Option: 5,000W continuous, 6,000W peak

## TESTIMONIALS

"I got rid of three other pumps when I put this one to use. It's very fast and handles cold oil with no problem. It's very heavy-duty and heavy, but light enough move around, making it very versatile."

- Muns53, Shop Owner

"This pump kicks butt. I pumped 5°F motor oil this morning."

- Justin, Professional Mechanic

"I am the guy that wanted to transfer diesel engine oil at temps below 32 degrees and just wanted to let you know that the pump worked great."

- Dennis, Equipment Operator

"Actually I have ordered three in total. Two this year and one last year. We use it to drain and fill hydraulic elevator tanks. All our hydro guys want one of these to save time. Works perfectly with AW32 hydraulic oil and Tractor hydraulic oil."

- Andrew, Hydraulic Systems Specialist

"Works great for transferring fuel to our waste oil burner"-

Bruce, Industrial User

"The Monster pump is really a monster at moving oil. We use the system for transporting waste oil to our heating system, will not be getting cold now."

- Keith and Allen, Facility Managers

"Pumping oil right now and the pump is working really well! 60 foot on the discharge and 15 ft on suction with SAE 40 oil."

- Patrick, Equipment Operator

"Oh my gosh! It blew us away! We emptied a 55 gal drum in under 5 minutes! Talk about one heck of a serious pump!"

"When we received our pump, we hooked it up and thought, 'Well, let's see what it'll do'. It'll suck so hard that if you're not careful with the dip tube you're using, it'll stick to the bottom of a 55 gal drum. I am extremely impressed with it! Talk about a monster! I recommend it to everyone."

- Max
