PRODUCT DESCRIPTION

● Type E adapters are normally used with Type C couplers, but can be used with Type B and D couplers or Type DC (Dust Cap) of identical size.

● Polished Hose Barb, for easy hose connection.

Product Description:

● The Type E is a Male Adapter x Hose Shank.

How To Use:

● To connect, slide the Type E Adapter into a Female Coupler and then close the two cam arms simultaneously.

● To disconnect, lift up the cam lever handles and uncouple the two hose fittings.

To Install:

Slide the Hose Barb into a Hose and fasten it in place with a crimp collar or hose clamps.

Will Connect with:

- The adapter portion will couple with a **Female Coupler**.
- The Hose Shank will install into to a Hose.

Used for:

- Installing a Male Cam & Groove into a Hose.
- Connecting with a Female Coupler of identical size.

Sizes:

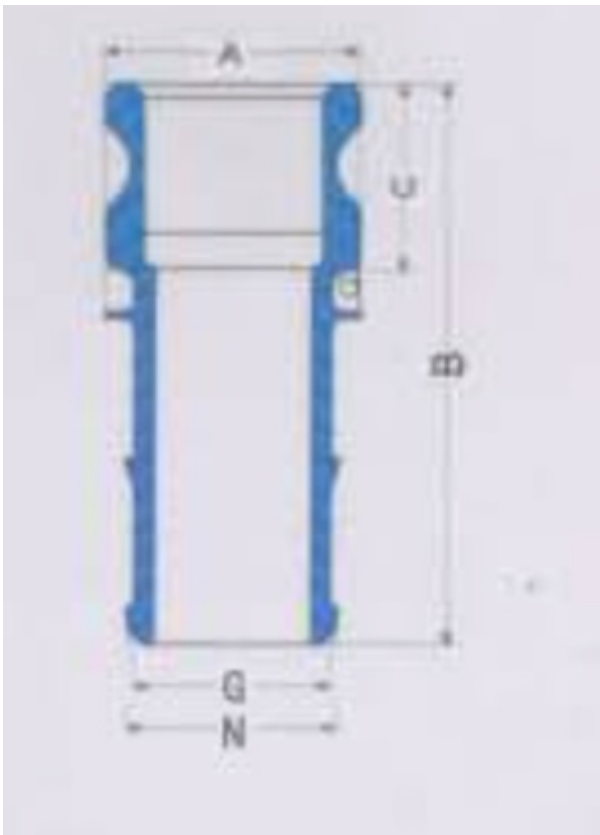

- This Aluminum Coupler is offered in sizes starting from 1/2" all the way up to 8".

Material of Construction:

- Constructed out of Aluminum.
- For other materials scroll down to **"Related Products"**.
