PRODUCT DESCRIPTION

Type F adapters are normally used with Type B couplers, but can also be used with Type C and D couplers or DC (Dust Cap) of identical size.

Description:

The Type F is a Male Adapter x Male NPT Thread.

How To Use:

- To connect, slide the Type F Adapter into a Female Coupler and then close the two cam handles simultaneously.
- To disconnect, lift up the cam handles and uncouple the pipe two fittings.

To Install:

- Thread the Male NPT portion into a Female NPT Thread.

Will connect with:

- The adapter portion will couple with a **Female Coupler**.
- The thread will connect to a **Female NPT Thread**. (National Pipe Thread)

Used for:

- Installing a Male Cam & Groove into a Female NPT Thread.
- Connecting with a Female Coupler of identical size.

Sizes:

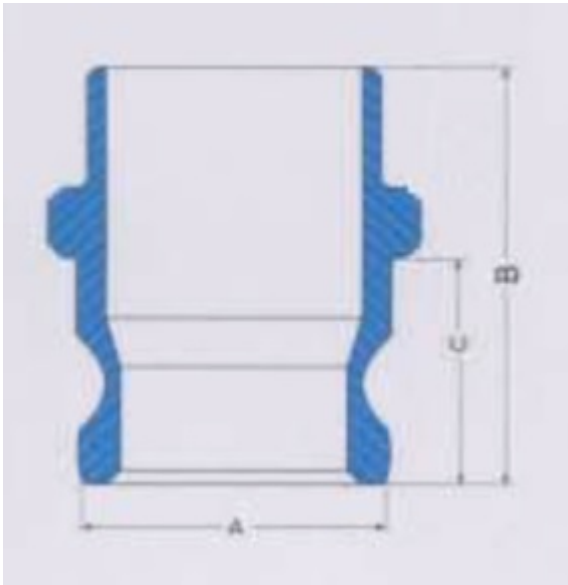

- This Aluminum Adapter is offered in sizes starting from 1/2" all the way up to 8".

Material of Construction:

- Constructed out of Aluminum.
- For other materials scroll Down to "**Related Products**".
